Phthalate-Free Jelly
Reversible Rotation
Three Powerful Speeds
Waterproof

Instead of applying direct stimulation to the clit like ordinary rabbit vibes do, the Clitty Spinner's patented clit stimulator twirls, teases and titillates the clit with each pulsating pass, while three rows of pleasure pearls massage deep inside.

Awaken your senses to Le Réve, the heavenly waterproof mini massager designed to fulfill your dreams and desires. This powerful vibrating micro bullet packs a punch and is discreet enough to take with you any where you go!

The one-touch push button controls make operation a snap, and the whisper-quiet vibrations ensure your little secret is safe. The highly polished plastic is hygienic and non-porous. Try it in the shower or spa and turn bath time into passion time!

Shock Therapy Electro Sex Kit

Give your sex life a “charge” with this incredible beginner’s electro-sex kit. This electric stimulation Shock Therapy kit is perfect for those new to e-stimulation. The easy-to-read LED screen on the digital power control unit clearly displays the function and intensity level, and with 3 pre-programmed pulsation patterns to choose from, this attractive control unit sends electrical impulses to whichever body part you place the pad on.

Choose from a sensuous tingle to a throbbing tap, all with the push of a button, and pick one of the 5 body zones to stimulate. With over 100 stimulation combinations to choose from, the possibilities are endless. Using the timer function, you can select the time of use and the battery-powered unit will automatically shut off after the interval.

The pads are self-adhesive and attach to the lead wire using snaps, and clean up easily after the fun with Pipedream Toy Cleaner and warm water. Great for muscle stimulation, neural stimulation, and an all-over relaxing electro massage!
