MIA 

ISABELLA'S

BIG SECRET COLLECTION®

More Than A Woman!!!

Dear Friends,

Just when you thought you've seen it all, Pipedream has done it again! Introducing "Mia Isabella's BIG SECRET Collection," the world's first and only line of transsexual-themed pleasure products inspired by and molded after the famous tranny superstar.

It's no big secret that niche products sell well, and this cutting-edge collection is no exception! We're pushing the envelope even further this time, as we continue to innovate products that no other company dares to make, and take risks that no other company is willing to take.

This time, we've filled a market void with a complete line of products endorsed by our very first transsexual contract star, Mia Isabella. We've given her collection the same Pipedream touch that you've come to expect - unique designs, coupled with eye-catching packaging, all with the edgy humor that has made Pipedream famous over the years.

The Big Secret Collection includes 11 unique tranny products, from lifelike replicas molded after Mia to one-of-a-kind masturbators and everything in between. We think you'll find the racy range a welcome addition to your Specialty/Niche sections and a perfect fit for all venues.

As always, we'd like to thank our customers for supporting all of our exciting new lines. We know that great customers are the key to our success and we're working diligently to improve every aspect of our business. Take a look for yourself and see what the "Big Secret" is all about! Enjoy!

Sincerely,

Nick Orlandino
